

User Story Document

Subscription Management System

EPIC	USER STORY	ACCEPTANCE CRITERIA
As an Admin, I need to access the Subscription Management System through a secure login so that I can configure products, recurring plans, taxes, and discounts, and manage Internal User accounts.	As an Admin, I want to log in with a registered email and password so that I can access the Admin dashboard.	Ensure the Admin is able to: ● log in with registered email and password ● have credentials validated against the stored account ● be redirected to the Admin dashboard ● retry login, or request a password reset, if the credentials are invalid ● receive a reset link by email, follow it, and set a new password meeting the strength rules
	As an Admin, I want to register for an account so that I can access the system.	Ensure the Admin is able to: ● enter Name, Email, and Password on the Signup page ● have the email validated as unique and the password validated against the strength rules ● have the account created and a confirmation email sent
	As an Admin, I want to manage products so that I can maintain the product catalog.	Ensure the Admin is able to: ● view the list of existing products ● create a new product (Product Name, Product Type, Sales Price, Cost Price) ● add variants (Attribute, Value, Extra Price) ● update or delete an existing product ● confirm before deleting a product ● be blocked from deleting a product referenced by an active subscription
	As an Admin, I want to define or edit recurring plans so that I can set the billing rules for subscription products.	Ensure the Admin is able to: ● view the list of existing recurring plans ● create or update a plan (Plan Name, Price, Billing Period) ● set Minimum Quantity, Start Date, and End Date ● configure plan options (Auto-close, Closable, Pausable, Renewable)
	As an Admin, I want to create discount rules so that they can be applied to products or subscriptions.	Ensure the Admin is able to: ● view the list of existing discounts ● create a discount (Discount Name, Type: Fixed or Percentage) ● set Minimum Purchase, Minimum Quantity, Start Date, End Date, Limit Usage ● select whether the discount applies to Products or Subscriptions

EPIC	USER STORY	ACCEPTANCE CRITERIA
	As an Admin, I want to configure tax rules so that they are automatically applied during invoice generation.	Ensure the Admin is able to: - view the list of existing tax rules - create a new tax rule or edit an existing one - enter the tax percentage and type - have the tax rule validated and saved
	As an Admin, I want to manage Internal User accounts so that authorized staff can operate the system.	Ensure the Admin is able to: - view the list of Internal Users - add a new Internal User (Name, Email, Role) - have the email validated as unique - update or deactivate an existing Internal User - have account details emailed to a newly created Internal User
	As an Admin, I want to view the reporting dashboard so that I can monitor subscriptions, revenue, payments, and overdue invoices.	Ensure the Admin is able to: - view a dashboard of active subscriptions, revenue, payments, and overdue invoices - filter the report by date range, status, or customer - see figures update in real time as subscriptions, invoices, and payments change state
As an Internal User, I need to access the Subscription Management System through a secure login so that I can create and manage subscriptions, quotations, invoices, and payments on behalf of customers.	As an Internal User, I want to log in with a registered email and password so that I can access the Internal User dashboard.	Ensure the Internal User is able to: - log in with registered email and password - have credentials validated against the stored account - be redirected to the Internal User dashboard - retry login, or request a password reset, if the credentials are invalid - receive a reset link by email, follow it, and set a new password meeting the strength rules
	As an Internal User, I want to register for an account so that I can access the system.	Ensure the Internal User is able to: - enter Name, Email, and Password on the Signup page - have the email validated as unique and the password validated against the strength rules - have the account created and a confirmation email sent

EPIC	USER STORY	ACCEPTANCE CRITERIA
	As an Internal User, I want to create a subscription for a customer, either from scratch or from a Quotation Template, so that their recurring billing can begin.	Ensure the Internal User is able to: ● open a blank subscription form, or select a Quotation Template to pre-fill the Recurring Plan, Product Lines, and Validity Days ● select the Customer, Recurring Plan, Start Date, and Payment Terms ● add Order Lines (Product, Quantity, Unit Price, Taxes) ● review and adjust any pre-filled data before submitting ● submit the form and create the subscription in Draft or Quotation status with computed totals
	As an Internal User, I want the system to apply matching discount rules during quotation or invoice generation so that customers receive the correct reduced price.	Ensure the Internal User is able to: ● have configured discount rules checked against the order lines ● have a matching discount (Fixed or Percentage) applied to the Products or Subscriptions ● have the discount's remaining Limit Usage reduced after it is applied ● see line and order totals recalculated to reflect the discount
	As an Internal User, I want the system to apply configured taxes to order and invoice lines so that invoice totals are accurate.	Ensure the Internal User is able to: ● have the applicable tax rule determined for each order or invoice line ● have the tax amount auto-calculated using the configured percentage and type ● see the tax amount added to the line and reflected in the invoice total
	As an Internal User, I want to generate an invoice from an active subscription so that I can bill the customer.	Ensure the Internal User is able to: ● generate a Draft invoice populated with customer details, product lines, taxes, and totals ● review the invoice before taking action ● confirm, cancel, send, or print the invoice ● have the invoice status updated from Draft to Confirmed, and emailed to the customer when sent
	As an Internal User, I want to record a payment against a confirmed invoice so that the invoice balance is updated.	Ensure the Internal User is able to: ● select a Confirmed invoice and open the payment form ● enter the Payment Method, Amount, and Payment Date ● submit the payment and have it recorded against the invoice ● have the invoice marked Paid once fully settled, or kept Confirmed with a reduced balance for a partial payment

EPIC	USER STORY	ACCEPTANCE CRITERIA
As a Portal/User, I need to access the Subscription Management System through a secure login so that I can view my own subscriptions, invoices, and payment status.	As a Portal/User, I want to register for an account so that I can access the customer portal.	Ensure the Portal/User is able to: - enter Name, Email, and Password on the Signup page - have the email validated as unique and the password validated against the strength rules - have the account created and a confirmation email sent
	As a Portal/User, I want to log in with a registered email and password so that I can access the customer portal.	Ensure the Portal/User is able to: - log in with registered email and password - have credentials validated against the stored account - be redirected to the customer portal dashboard - retry login, or request a password reset, if the credentials are invalid - receive a reset link by email, follow it, and set a new password meeting the strength rules
	As a Portal/User, I want to view my subscriptions and invoices so that I can track my status and payment history.	Ensure the Portal/User is able to: - log in to the customer portal - view a dashboard showing active subscriptions - select a subscription to view its details, order lines, and status - navigate to Invoices to view invoice status and download invoice documents
	As a Portal/User, I want to be able to request a pause on an active recurring subscription and resume it whenever I want	Ensure the Portal/User is able to: - select an active subscription whose Recurring Plan has the Pausable option enabled - submit a request to pause the subscription - view a paused subscription's status in the portal - submit a request to resume a paused subscription - have the subscription's status updated to reflect the pause or resume
